CAREER OBJECTIVE

As a final-year Computer Science and Engineering student passionate about backend development, I seek a role where I can apply my skills in database management, server-side logic, and API development to build scalable web applications. I am eager to contribute, learn, and collaborate on innovative projects in a dynamic environment.

EDUCATION

Tagore Engineering College, B.E Computer Science and Engineering 2021 - 2025

- CGPA: 8.29/10

Bharatiya Vidya Bhavans Higher Secondary School, Computer Science 2018 – 2019

- Scored 83% in the 12th-grade Board Examination

Bharatiya Vidya Bhavans Higher Secondary School 2018

- Scored 82.8% in Board Examinations

PROJECTS

1. **Assessment Platform** – Created a website using React for the front end and Node.js with MongoDB for the back end. It includes AI features for answer evaluation and an AI-powered proctoring system to maintain assessment integrity.
2. **Recipe Platform** – Designed a responsive web application using HTML, CSS, Express, and Node.js. Users can easily access recipes through interactive icons, ensuring an intuitive experience.
3. **Simon Game** – Developed the Simon Game, an interactive app that enhances short-term memory using HTML, CSS, and JavaScript. Players remember and replicate complex sequences of colors and sounds, providing a fun cognitive challenge for all ages.
4. **Moving Service Platform** - Designed a static website for a moving service platform using HTML, CSS, and Bootstrap. It features a user-friendly interface that simplifies finding and requesting relocation services.
5. **AI-Powered Grievance Management and Solution System** - AI-Powered Grievance Management and Solution System – Progress Tracker A smart grievance handling system which is designed for the government sector. Citizens can file complaints via a web application with an option for anonymity. It also ensures privacy, transparency, and open communication between users and the authority.

ACHIVEMENTS

1. Hexaware Mavericks Hackathon – 2nd Prize

INTERNSHIP TRAINING

Web Development Internship – Red Cherry Solutions Pvt Ltd.

June 2023 – July 2023

Enhanced and designed a website for movie theatre management, improving user experience and functionality. This project helped me develop advanced front-end skills in HTML, CSS, and JavaScript while effectively showcasing the theatre's offerings and schedules.

Cyber Security Internship – CODETEC IT Solutions

July 2024 – Aug 2024

Completed an internship in ethical hacking and cybersecurity, gaining hands-on experience in identifying vulnerabilities and implementing security measures. This opportunity deepened my understanding of network security, penetration testing, and best practices for protecting digital assets.

TECHNICAL SKILLS

Good knowledge of C, C++, Python, Java, HTML, CSS, JavaScript, ReactJS, NodeJS, Express, MongoDB and Git

CERTIFICATIONS

- Introduction to MongoDB for Students - Offered by MongoDB.
- Celonis Foundation Certificate - Focused on Data Mining.
- Digital Marketing Certificate - From NSE Academy.
- Microsoft Office 365 Productivity Suite - Advanced Level.
- Journey to Cloud: Envisioning Your Solution – IBM.
- MongoDB Node.js Developer Path for Smart Bridge – Offered by MongoDB.
- C++ Programming, Java and MERN Stack – TechForce Academy.

PERSONAL DETAILS

Date of Birth: 22.12.2001 (22 yrs)

Gender: Male

Address: Nithya Nivas, Cholakulangara, Kuthiravattom PO, Calicut, Kozhikode, 673016

Father's Name: Nithyanadan M

Alternate Mobile Number: +91 8129005074

Languages Known: English, German, Hindi, Tamil, Malayalam (native)

Hobbies: Table Tennis, Badminton, Basketball.

DECLARATION

I hereby declare that all the information given above is true to the best of my knowledge.

A handwritten signature in blue ink, appearing to read 'Sourav Anand N', with a stylized flourish at the end.
